

Michigan animal shelters that euthanize by gas chamber

Only eight (8) shelters in Michigan euthanize shelter animals in gas chambers. All other Michigan shelters utilize euthanasia by injection (EBI), which is the most humane method available.

Carbon Monoxide:

Berrien County Animal Control – **EBI trained**

Branch County Animal Control – **Has an EBI backup**

Cass County Animal Control – **Has an EBI backup**

St. Joseph County Pound and Animal Control – **EBI trained**
